LIBRARIAN'S REPORT

The book circulation for the Bartlett Public Library for 1967 was 6,529, an increase of 962 books over 1966 circulation. Three hundred and twenty-three new books were purchased and several were given to the library. Mr. David Taylor subscribed to the "American Opinion" magazine for the library. The bookmobile visited the library four times and left a total of 817 books.

The librarian took a course in "Public Library Techniques" in the fall of 1967 and plans to take the course "Programs and Children's Work" that will be offered this spring. These courses are given through the University of New Hampshire Extension Service and are held weekly for ten weeks at Plymouth State College. The librarian attended five co-operative book-buying meetings and a workshop on library policy making.

Because the library is part of the North Country Co-operative Library System, the library is able to purchase its books at 38% discount as compared to 25-30% that we would receive if buying books alone. We also received a state aid grant of \$100.00 for reference books. This year we purchased a 1968 edition of the Compton's Pictured Encyclopedia.

The "Friends of Library" group under the chairmanship of Mrs. Benson Howard, met and planned activities for National Children's Book Week in November, and are now making plans for National Library Week in April. Monthly film programs on Authors are being held for teen-agers.

This year's budget is basically the same as last year, except we would like to purchase some much needed free standing stacks. At present our shelving is inadequate and with more book purchases, there will not be shelf room for the books.

Our proposed budget is as follows:

Salary	\$1,330.00
Books and magazines	1,000.00
Library stacks	300.00
Supplies	90.00
Travel	80.00
Janitor	30.00

Report of Forest Fire Warden and District Chief

After several successive years of drought, the rains of 1967 came as a welcome change. Our records of the past fire season is good. Our thanks to all who contributed to achieve this good record. Continued improvement in the matter of accurate, prompt detection and rapid effective suppression action can help to maintain this good, worthwhile record even though we do not have an abundance of rain as in the fire season of 1967.'

It will help if we follow these simple suggestions:

- 1. No burning of debris and waste between the hours of 9:00 a.m. and 5:00 p.m. and then only with a written permit from the Forest Fire Warden.
- 2. Take debris and waste to the town dump.
- 3. Maintain a clean, safe dump.
- 4. Keep matches away from young children.
- 5. Be sure matches and smoking material are dead out when we discard them.
- 6. Set a good example for others in fire prevention.

Regional Airport Report — 1967

Fryeburg, Maine

February 8, 1968

To the Selectmen of the Area Towns:

In the year 1967, the Directors of the Eastern Slope Regional Airport Authority have experienced another year of further progress, mixed, as usual, with a number of problems. Use of the airport has certainly continued at least at as great a level as in former years, in spite of Operator matters beyond the control of the Directors.

The Operators engaged at the beginning of 1967 found themselves unable to continue the operation beyond the Spring, due to transfer of one of their number to foreign service. Accordingly, it was necessary for the Authority to employ an attendant at the airport during the summer of 1967 while searching for a new Operator. However, during the summer a substantial improvement was made to protect the airport by the sealing of pavement cracks, which should leave the pavement in good condition for many years.

With the Fall of 1967, the Directors have made arrangements with a new Operator, Mr. Hanson, whose subsequent operation of the airport has, in the opinion of the Directors, been superior to any previously experienced. In fact, usage of the airport has grown to such an extent that in December of 1967, the Directors voted to undertake the erection of a six-place "T" hangar, because of the great demand by pilots in this area for winter protection for their craft. It is hoped that over the years rental income from this facility will go a long ways towards recovering its cost, as well as providing a valuable needed service. This hangar is now under construction, and will, hopefully, be in use during the last half of the 1967-68 winter season. It will exhaust all of the capital funds of the Airport Authority, and compel borrowing to at least a limited degree, thus making support by the municipalities even more necessary than in the past.

An interesting activity at the Airport during 1967 was the operation therefrom of a glider doing experimental research on clear air turbulence in the Mt. Washington area. Every potential new business which has made inquiries concerning the area has indicated that the airport has had a significant effect in attracting it here. The Directors urge that all citizens of area towns make an effort to pay a personal visit to the airport, so that they and their friends may be acquainted with its facilities and available services.

Report of School Nurse

All of the children received eye and ear examinations and physical inspections.

42 students in grades 1, 4, and 7 had physical examinations at Memorial Hospital.

10 children received Measles vaccine.

A Dental Education Program was given by the State Dental Hygienist. Dental fluoride and cleaning treatment was offered to grades 1, 3, 6, and 7.

Many thanks for all the help given to me during the year.

Respectfully submitted,
CATHERINE AGUERE, R.N.

WHY SPEECH THERAPY?

A child sits silently in his first grade classroom day after day unable to communicate with the other children or the teacher because his speech has not developed as rapidly as the other children's speech. A girl in Kennett High School dreads being called on in class because her hesitant, stuttering speech makes talking so difficult for her. Across the hall another student is straining to catch all that the teacher is saying. This student is handicapped by a hearing loss.

These are just some of the cases in our school union which have been helped through speech therapy. A total of 125 students have been enrolled in this new remedial speech program. The following breakdown shows the number of students enrolled in speech therapy from each school:

Conway — 22	Tamworth — 20
Pine Tree — 10	Madison — 7
John Fuller — 24	Jackson — 3
Kennett — 12	Chatham — 2
Bartlett — 15	Freedom — 10

Defective speech can be defined as speech which calls attention to itself. When a child uses speech that is not normal or that calls attention to itself, a program of speech therapy is necessary. Our goal is to help the child with defective speech attain normal, acceptable speech.

To facilitate this end we are fortunate enough to have some very up-to-date equipment, including one item of special importance — a video tape recorder. This machine is like a miniature TV camera in that a child's image can be recorded on tape along with his voice. We then play the tape back so the child can see and hear himself on the TV screen. This has proven invaluable in correcting some children's speech.

Speech difficulties are not something that occur only in other communities to other people's children. We have realized that fact here in School Union No. 9 and have set up an adequate program of speech therapy to help those children who need help in speech.

Mrs. Joanne Knox
Speech Therapist

ELEMENTARY GUIDANCE COUNSELING

As an Elementary Guidance Counselor for Supervisory School Union No. 9 under the Title I Project, I am also a member of the teaching staff; and am concerned with the normal learning development of all the elementary school children in the Union.

Vocational Guidance is a part of my service. I feel that students should be exposed to the world of work, and should be helped to understand their own abilities and interests so that they can make realistic choices. Educational Guidance is closely related to Vocational Guidance and all other types of guidance, individual or group.

In addition to my personal contacts with students and consultations with teachers and parents, I give such tests as the Stanford Achievement Test, the Lorge-Thorndike I.Q. Test, and the State-Wide test for the eighth grades. These I evaluate and correlate in statistical form.

I am also trying to launch research on the effectiveness of the guidance program as regards its value to school children in their learning and developmental attitudes toward school.

Mr. Ping C. Wu
Elementary Guidance Counselor
